

ATTENTION: ALL ST. PAUL'S RESIDENTS, FAMILY MEMBERS AND TEAM MEMBERS

Visitation Guidelines UPDATES: (updated 08/04/2021)

We continue to Comply with guidance from the Centers for Disease Control (CDC), Centers for Medicare and Medicaid Services (CMS), and the Pennsylvania Department of Health (PA DOH). Visitors MUST adhere to the Core Principles of COVID-19 Infection Prevention as outlined by CMS, CDC and PADOH:

1. ALL visitors (including children) MUST be successfully screened first through the Accushield kiosk before proceeding to the resident room or other *designated location*. If the screening generates an alert, please see the receptionist before proceeding. All visitors must wear their screening stickers during your visit.
2. Regardless of vaccination status, visitors must wear a well-fitting cloth or surgical mask (covering mouth and nose) at all times whether inside or outside. We ask you to encourage and assist residents with wearing a mask during your visit.
3. Use hand sanitizer before and after your visit. *Please assist your resident to do the same.*
4. Maintain physical distance. If a resident is fully vaccinated (two weeks post vaccination), he/she may choose to have close contact during a visit including physical touch while wearing a well-fitted mask and using hand hygiene before and after contact. Please maintain physical distance with all other residents and team members.
5. Visitation is limited to no more than 3 visitors at one time. If more than 3, we ask that you please wait outside or in your car to minimize congestion within the building.
6. Visitation may ONLY occur in resident rooms/apartments or outdoors. Visitation is not permitted in common spaces such as dining rooms, great rooms or hallways. Dining times to avoid are 11:30-12:30 and 4:30-5:30. Please do not linger during entry or exit of the building. You may wait in resident's room/apartment during mealtime.
7. Residents in 14-day quarantine or in isolation can have virtual or window visits. In-person visits are limited to end of life or compassionate care situations.
8. Please limit your touching of any surfaces. Clean/disinfect high touch surfaces.
9. Visitors should continue to monitor for any signs or symptoms of a respiratory infection for 14-days after your visit. If symptoms occur, self-isolate at home, contact your doctor and immediately notify St. Paul's administration of the date of your visit and the names of individuals you had contact with while at St. Paul's.

10. VISITATION HOURS: Daily: 9AM-7:30 PM

If you have any questions regarding this communication or St Paul's plan of action please contact Tammy Lininger, Administrator at the Villas; Dianna Jones, administrator of The Heritage; or Mickie Chapman, administrator of The Ridgewood.
