

ATTENTION: ALL ST. PAUL'S RESIDENTS, FAMILY MEMBERS AND TEAM MEMBERS

IMPORTANT - 10/21/2020 COVID-19 UPDATE – *please read this in its entirety.*

In accordance with shared recommendations from the Centers for Disease Control, Centers for Medicare and Medicaid Services, the Pennsylvania Department of Health (PA-DOH) and others, St. Paul's is in the process of administering our monthly widespread team member COVID-19 testing. We began testing all team members on Monday, October 19, 2020 and continue to wait for all the results to become available.

This morning we were notified by the lab we utilize for our widespread Covid-19 testing that one of our team members at the Villas tested positive for Covid-19. We are currently working with PA-DOH to navigate through our next steps, which may include widespread resident testing, ongoing team member testing, etc. We will update you with more information regarding our plan as it becomes available.

At this point we are required to suspend all non-essential services in the Villas for at least 14 days; this includes visitation and beauty and barber services. ***The suspension of these non-essential services takes affect immediately.***

In addition, we will also be conducting testing on residents that reside on the neighborhood this team member was assigned to during their most recent days at work.

We are saddened by this development; however, the well-being of our residents and team members continues to be our main priority.

We will be sending out additional correspondence regarding this matter as it becomes available along with the results of our pending tests when they become available.

If you have any questions regarding this communication or St. Paul's plan of action please contact Tammy Lininger, Administrator at the Villas, or Leann McCurdy, Director of Nursing at the Villas.
