

**ATTENTION: VILLAS RESIDENTS, FAMILY MEMBERS AND TEAM MEMBERS**

**IMPORTANT – 1/19/2021 COVID-19 UPDATE** – *please read this in its entirety.*

In accordance with shared recommendations for the Centers for Disease Control, Centers for Medicare and Medicaid Services, the Pennsylvania Department of Health and others, we are required to notify you each time there is a change or development in our Covid-19 status, including new cases among residents and/or team members. We are also required to notify you if we admit a resident with a Covid-19 diagnosis even if they have met the criteria for discontinuation of transmission-based precautions.

We continue to administer ongoing Covid-19 testing of all residents every 3-5 days. In addition, we are testing residents who present symptoms consistent with Covid-19. We are also performing widespread testing of all team members twice per week and it will be administered at various times throughout the week going forward as compared to specified days. Team members who present with symptoms consistent with Covid-19 are taken off the schedule and advised to consult with their clinician.

Today, we received notification that we have two new team members who tested positive for Covid-19.

Since this outbreak began on November 12, 2020 we have had a total of 54 residents and 65 team members at the Villas test positive for Covid-19. We have also had six third party health care workers who provide services to our residents test positive for Covid-19. Furthermore, we have admitted three residents who have tested positive and had met the criteria for discontinuation of transmission-based precautions upon admission and one resident from elsewhere on campus who tested positive.

Any resident that tests positive and remains in our care would be moved to our designated “Red Zone” neighborhood, Orchards A. Here, residents receive proper care until they meet criteria for discontinuation of transmission-based precautions as defined by CMS and PA DOH.

All other resident neighborhoods continue to follow “Yellow Zone” protocols, a measure required to be taken when a potential exposure exists.

Just a reminder, our second vaccination clinic for Villas residents and team members is scheduled for February 3 and 4.

We continue to be vigilant as a community and a team in our efforts to minimize the spread of Covid-19 considering the data indicating a high positivity rate of nearly 1-in-5 people in our region testing positive for Covid-19. Please review our website for further information regarding procedures already in place due to positive Covid-19 cases.

Please keep those impacted by Covid-19 in your thoughts and prayers. If you have any questions regarding this communication or St Paul’s plan of action please contact Tammy Lininger, Administrator at the Villas or Leann McCurdy, Director of Nursing at the Villas.
