

**ATTENTION: VILLAS RESIDENTS, FAMILY MEMBERS AND TEAM MEMBERS**

**IMPORTANT – 11/16/2020 COVID-19 UPDATE** – *please read this in its entirety.*

In accordance with shared recommendations for the Centers for Disease Control, Centers for Medicare and Medicaid Services, the Pennsylvania Department of Health and others, we are required to notify you each time there is a change or development in our Covid-19 status, including new cases among residents and/or team members and if we admit a new resident who is currently positive for Covid-19.

We received notification last evening from one of our Villas team members who has been off work with symptoms consistent with Covid-19 that a test they had performed at the start of their illness came back positive for Covid-19. This result does not require us to take any further action at this time as all resident neighborhoods are currently following “Yellow Zone” protocols, a measure required to be taken when a potential exposure exists. Also note that any positive test results are immediately communicated verbally to the resident who tests positive and/or their responsible party, or a team member who tests positive.

Please review our November 14, 2020 update posted on our website for further information regarding procedures already in place due to positive Covid-19 cases. Please keep those impacted by Covid-19 in your thoughts and prayers.

If you have any questions regarding this communication or St Paul’s plan of action please contact Tammy Lininger, Administrator at the Villas or Leann McCurdy, Director of Nursing at the Villas.
