

ATTENTION: VILLAS RESIDENTS, FAMILY MEMBERS AND TEAM MEMBERS

IMPORTANT – 8/6/2021 COVID-19 UPDATE – *please read this in its entirety.*

In accordance with shared recommendations for the Centers for Disease Control (CDC), Centers for Medicare and Medicaid Services (CMS), the Pennsylvania Department of Health (PA DOH) and others, we are required to notify you each time there is a change or development in our Covid-19 status, including new cases among residents and/or team members. We are also required to notify you if we admit a resident with a Covid-19 diagnosis even if they have met the criteria for discontinuation of transmission-based precautions.

We continue to perform testing of all team members as required by the PA DOH. Team members who present with symptoms consistent with Covid-19 are taken off the schedule and advised to consult with their clinician. In addition, any resident(s) who present with symptoms consistent with COVID-19 are tested.

We are required to notify you that one resident was admitted who has met criteria for discontinuation of transmission-based precautions. As such, we have updated our cumulative totals below.

Since November 2020, we have had a total of 57 residents and 85 team members at the Villas test positive for Covid-19. We have also had six third party health care workers who provide services to our residents test positive for Covid-19. Furthermore, we have admitted seventeen residents who have tested positive and had met the criteria for discontinuation of transmission-based precautions upon admission and one resident from elsewhere on campus who tested positive.

If you have any questions regarding this communication or St Paul's plan of action please contact Tammy Lininger, Administrator at the Villas or Leann McCurdy, Director of Nursing at the Villas.
